Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 24th September 1960

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

The 8th September 1960

73287. Bataafse Petroleum Maatschappij N. V. A process for the production of readily soluble mixtures of alkali metal benzene sulphonates.

73288. Bataafse Petroleum Maatschappij N. V. A process for the preparation of surface-active mixtures having a high foaming capacity.

73289. Bataafse Petroleum Maatschappij N. V. A process for the removal of sulphuric acid from sulphonation products of alkyl aryls.

73290. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to circuit arrangements comprising a controlling cross-bar system.

73291. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to circuit arrangements comprising at least one writing circuit and at least one reading circuit.

73292. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to circuit arrangements for controlling a cross-bar system consisting of at least two inter-crossing groups of conductors.

73293. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of treating solids, in particular semi-conductive materials.

73294. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods and devices for manufacturing rod-like bodies by zone-melting.

73295. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing a coating paste for welding electrodes and methods of coating welding electrodes.

73296. Phillips Petroleum Company. Pyrolytic conversion of hydrocarbons.

73297. Crown Zellerbach Corporation. Extensible paper and the process for producing the same.

73298. Col. T. P. Rajan and U. G. Fryklund. A method of producing a dissolving pulp from bamboo and other raw materials rich in pentosan, which can be used in the manufacture of cellulose derivatives, viscose, cellophane, lacquer and other like materials.

73299. D. S. Sharma. Cast alnico magnets.

The 9th September 1960

73300. M. S. I. Pillai. Agricultural purpose to raise water from the well with the help of bullocks and men.

73301. Normalair Limited. Improvements in or relating to air conditioning systems for vehicles.

73302. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Herbicidal composition.

73303. David Roberts & Co. (Engineers) Limited. Improvements in or relating to scaffolding.

73304. United States Steel Corporation. Assembly for insertion in a blast furnace wall.

73305. Continental Oil Company. Complexes of trialkylaluminium compounds with mixtures of alkali metal cyanides.

73306. R. K. Sethi. Dual air-charge two-stroke spark ignition engine.

73307. Svit, narodni podnik. A device for controlling machines serving to connect shoe soles to the shoe uppers.

The 12th September 1960

73308. Radio Corporation of America. Acoustical diaphragm.

73309. S. W. Wheeler. Automatic control for adjusting rolling mills.

73310. Polysius G.M.B.H. Apparatus for classifying solids.

73311. Martin, Black & Co. (Wire Ropes) Limited. Improvements relating to horizontal tubular stranding machines.

73312. Stamicarbon N. V. Sampler for flowing liquids, a sampling process, and a process for controlling a saturator in which use is made of the said sampler and sampling process.

73313. The Singer Manufacturing Company. Sewing machine.

73314. La Telemecanique Electrique. Monitoring device for polyphase power supply systems.

73315. Vereinigte Österreichische Eisen- und Stahlwerke Aktiengesellschaft. Refractory-lined vessel.

73316. Chas. Pfizer & Co., Inc. Process of obtaining antimicrobial agents.

73317. G. G. Primakoff. Hinges for doors, windows or the like panels.

73318. G. G. Primakoff. Venetian blinds.

73319. G. G. Primakoff. Awnings or the like.

73320. Hindusthan Gas Co. Ltd. Improvements in or relating to oil burners.

73321. The Steel Company of Canada Limited. Process for the reduction of iron oxide.

73322. American Cyanamid Company. 1-(acylaminoaryl)-3,3-disubstituted triazenes.

73323. Holo-Flite International Incorporated. Power drive devices. (15th September 1959).

73324. Bristol Siddeley Engines Limited, and Beaver Precision Products Incorporated. Means for pre-loading ball-type screw and nut assemblies.

73325. Bristol Siddeley Engines Limited and Beaver Precision Products Incorporated. Ball way construction.

73326. Bristol Siddeley Engines Limited and Beaver Precision Products Incorporated. Ball screw assembly with internal ball return.

73327. Dowty Hydraulic Units Limited. Hydraulic apparatus.

73328. Dowty Hydraulic Units Limited. Improvements in release mechanism for automatic wagon couplers. (25th September 1959).

73329. Dowty Hydraulic Units Limited. Hydraulic Apparatus. (17th September 1959).

73330. Yardney International Corp. Improvements relating to electric batteries. (20th November 1959).

73331. The Upjohn Company. Organic compounds and process.

73332. Standard Telephones and Cables Limited. Improvements in or relating to electric pulse code translators. (7th December 1959).

73333. Standard Telephones and Cables Limited. Improvements in or relating to electro-acoustic transducers. (12th February 1960).

73334. Standard Telephones and Cables Limited. Improvements in or relating to insulated electrical conductors. (11th March 1960).

73335. Oldham & Son Limited. Improvements in or relating to permeable diaphragm material. (23rd March 1960). [Addition to No. 64983].

73336. RNB Corporation. Radiant nuclear boiler. (20th November 1959).

73337. Minimax, Limited. Improvements in or relating to high expansion foam making branch-pipes.

73338. Minimax, Limited. Improvements in or relating to primers for rotary pumps.

73339. Ciba Limited. Process for the manufacture of thiazines.

The 13th September 1960

73340. S. G. Hegde. Shree kannada toarakkara.

73341. The British Drug Houses Limited. Organic compounds. (24th September 1959).

73342. Elektro-Motoren AG. Alternating-current machine.

73343. Norton Company. Improvements in or relating to abrasive grain material of sintered bauxite.

73344. American Viscose Corporation. Coatings of cellulose crystallite aggregates.

73345. American Viscose Corporation. Level-off D. P. cellulose products.

73346. Mavor & Coulson Limited. Improvements relating to conveyors.

73347. Ross Operating Valve Company. Fluid-actuated shiftable mechanism.

73348. Westinghouse Brake & Signal Company Limited. Improvements relating to vehicle vacuum braking apparatus. (22nd September 1959).

73349. Westinghouse Brake & Signal Company Limited. Improvements relating to fluid pressure vehicle braking apparatus. (29th September 1959).

73350. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to circuit arrangements for synchronising a local oscillator with the aid of a phase discriminator.

73351. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to voltage limiters.

73352. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to current supply devices of the kind including a transistor circuit.

73353. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to transistor voltage converters.

73354. Ciba Limited. New phenylbenzazoles and process for their manufacture.

73355. Dowty Hydraulic Units Limited. Hydraulic apparatus.

73356. The British Fibrak Separator Company Limited. Improvements in or relating to diaphragms. (29th September 1959).

73357. Elektro-Thermit G.m.b.H. Process and apparatus for the preparation of gaps between rails for aluminothermic welding.

73358. Dexion Limited. Improvements relating to structures comprising panels secured to framework. (21st September 1959).

73359. Huttenwerk Oberhausen Aktiengesellschaft. Process for refining metals.

73360. Sandoz Ltd. Disperse dyestuffs of low water solubility.

73361. E. I. du Pont de Nemours and Company. Preparation of acrylonitrile dimer.

73362. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Vial and method of manufacture thereof.

73363. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Filtration apparatus.

73364. Institut Francais Du Petrole, Des Carburants Et Lubrifiants. Improvement in the operating conditions of supercharged compression ignition engines.

73365. Lepetit S.p.A. Tropine esters. (23rd September 1959).

73366. Massey-Ferguson Inc. Improvements in and relating to endless tracks for tractors and attachments for supporting such tracks.

73367. Ciba Limited. Process for dyeing nitrogenous fibres.
The 14th September 1960

73368. Indian Plastics Limited. Manufacture of seats and lids for cisterns.

73369. Indian Plastics Limited. Manufacture of seats and lids for water closets.

73370. Stamicarbon N. V. Process for purifying α -aminolactams.

73371. Martin, Black & Co. (Wire Ropes) Limited. Improvements in or relating to tubular stranding machines.

73372. Imperial Chemical Industries Limited. New Dye-stuffs. (24th September 1959).

73373. Imperial Chemical Industries Limited. New colouring process. (24th September 1959).

73374. Farbenfabriken Bayer Aktiengesellschaft. Process for the production of termite-resistant rubber articles. (29th June 1960).

73375. Monsanto Chemical Company. Insecticide formulations. (21st March 1960).

73376. The English Electric Company Limited. Improvements in and relating to electric closed-loop control systems. (22nd September 1959).

73377. Abbott Laboratories. Improvements in or relating to pharmaceutical composition.

73378. Inventa A. G. Fur Forschung Und Patentverwertung. Process for the upgrading of cellulosic textiles.

73379. Inventa A. G. Fur Forschung Und Patentverwertung. Process for the manufacture of ω -ureido-carboxylic acids.

73380. Aktiebolaget Pellerins Margarinfabrik. Method for treating fat.

73381. Aktiebolaget Pellerins Margarinfabrik. Method for removing small alkali and soap rests in alkali-refined fats.

73382. Aktiebolaget Pellerins Margarinfabrik. Process and plant for refining fats.

73383. The Upjohn Company. Composition of matter.

73384. The Upjohn Company. Composition of matter.

73384. Joh. Jacob Rieter & Cie. Aktiengesellschaft. Air suction system for removing threads, fly and dust from spinning machines.

73385. T. Yoshida. Machines for manufacturing locking links for slide fasteners.

Alteration of Date

67050. Post-dated to 17th April 1959 under Section 5 of the Act.

68155. The claim to priority date 25th June 1958 has been abandoned and the application dated as of 24th June 1959, the date of filing in India.

72101. Ante-dated to 10th March 1959 under Section 5 of the Act.

72724. Ante-dated to 12th December 1958 under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

66074. West Point Manufacturing Company. Process for avoiding or controlling odors in filamentary or sheet material treated with aldehyde resin. Accepted on 9th September 1960.

Treating filamentary or sheet material with an aldehyde resin, curing said resin, impregnating said material with a compound supplying HSO_4^- ion and drying the material.

66076. Commercial Bureau. Improvements relating to oil resisting impregnated high tension insulating tape for high tension electric cables and cable joints. Accepted on 9th September 1960.

Bringing a continuous length of textile fabric in contact with a composition of phthalic anhydride, glycerine, W/W grade rosin, dehydrated castor oil and tricresyl phosphate and further coating one or both sides of the fabric with a composition of phthalic anhydride, glycerine, stearic acid and tricresyl phosphate and finally drying and curing the coated fabric.

66077. Commercial Bureau. Improvements relating to bituminous impregnated high tension insulating tape for cables and cable joints. Accepted on 9th September 1960.

Bringing a continuous length of textile fabric in contact with a composition of blown bitumen and ester gum or coumarone resin and organic solvent and coating its surfaces with a composition of blown bitumen, ester gum or coumarone resin and organic solvent and drying the coated fabric.

66078. Commercial Bureau. Improvements relating to oil immersed impregnated high tension insulating tape for high tension electric cables and joints. Accepted on 9th September 1960.

Bringing continuous length of textile fabric in contact with a composition of ester gum, dehydrated castor oil and organic solvent, winding into a roll and keeping it immersed in a composition of transformer oil and W/W grade rosin.

66079. Council of Scientific and Industrial Research. Improvement in or modification of a tensioning screw jack with particular reference to a pressure measuring device for recording the tension. [Addition to No. 63865]. Accepted on 8th September 1960.

Comprises cross-head with two connected cylindrical holes in which are housed two pistons which receive the load from tensioned wires as compression and transmit it to a pressure gauge by comprising the fluid in the holes.

66117. Standard Telephones and Cables Limited. Improvements in or relating to data processing and telephone subscribers metering equipments. (23rd December 1957). Accepted on 9th September 1960.

Using magnetic drum storage devices.

66136. Chas. Pfizer & Co., Inc. Feed supplements and preparation. Accepted on 14th September 1960.

Comprising 3, 5-diketo-2, 3, 4-tetrahydro-1, 2, 4-triazine.

66966. Council of Scientific and Industrial Research. An improved process for the manufacture of porous rigid filters. [Addition to No. 59608]. Accepted on 8th September 1960.

Coating the particles of an inert material with resinous adhesive composition comprising trimethyl phenol or dimethylol area placing coated particles in a mold with or without supports.

66994. The General Electric Company Limited. Improvements in or relating to control means for electric switches. (27th June 1958). Accepted on 9th September 1960.

A depressable and rotatable button with switch mechanism is adapted to provide for a plurality of switch conditions by the movement of the said button.

66995. The General Electric Company Limited. Improvements in or relating to electric switches. (27th June 1758). Accepted on 12th September 1960.

Wherein auxiliary switchgear is arranged so that contacts thereof are disposed in the same compartment as the main switch contact, and below the level of the liquid in which main contacts are immersed.

66996. The General Electric Company Limited. Improvements in or relating to gaskets. (27th June 1958). Accepted on 12th September 1960.

Made up of non-corrodible plastic material which in transverse section comprises two legs surmounted by a shallow trough having the concave mouth facing opposite to the legs.

66997. The General Electric Company Limited. Improvements in or relating to electric switches. (27th June 1958). Accepted on 12th September 1960.

An isolator is so arranged that it can be plugged into or otherwise detachably connected with the switch so as to form an integral unit with the switch.

66998. The General Electric Company Limited. Improvements in or relating to electric switches having interlocking mechanisms. (27th June 1958). Accepted on 12th September 1960.

Interlocking mechanism including an arm of arcuate form normally operable together with a movable contact and adapted to engage a member carried by a lid giving access to the interior to prevent removal of the lid when the switch is in closed position.

66999. The English Electric Company Limited. Improvements in and relating to electrical protective relay systems. (11th March 1958). Accepted on 12th September 1960.

Comprising means for separately deriving the positive and negative phase sequence components of the current in a three-phase protective circuit, means for providing a predetermined relationship of the relay controlling effects of said components and circuit tripping means adapted to respond to said relationship.

67008. The Associated Equipment Co. Railway lever crossing warning and closing signal to road traffic. Accepted on 12th September 1960.

Comprising a generator fitted to the under carriage frame, three longitudinal copper plates running longitudinally at the centre of the pair of track rails, the connections are so made as to create buzzing or signal to public.

67009. The General Electric Company Limited. Improvements in or relating to electric switches. (23rd July 1958). Accepted on 9th September 1960.

Wherein the housing for the switch is provided with a detachable lid, cover or the like containing or carrying the indicating instrument.

67016. California Research Corporation. Nuclear spectroscopy well logging. Accepted on 12th September 1960.

Comprising means for positioning neutron source, means for positioning gamma ray detector, shielding means between them, shielding means surrounding detector, means for converting neutron-capture gamma rays entering the detector to electric signals and means for recording frequency of repetition of electric signals.

67027. Babcock & Wilcox Limited. Improvements relating to tube mills. (14th March 1958). Accepted on 9th September 1960.

Wherein weight responsive means subject to a weight including that of the mill and of material undergoing pulverisation therein or a proportion of the weight are adapted to effect control of mill feeding means in the manner tending to maintain the weight acting on the weight responsive means approximately constant or within the range.

67028. Spencer-Bonecourt-Clarkson Ltd. Improvements in tubulous heat exchangers. (13th March 1958). Accepted on 12th September 1960.

Wherein each tube includes a plurality of extending between the other pair of opposite sides of the gas pass.

67030. George Spencer, Moulton & Company Limited. Improvements in and relating to resilient rail pads. (15th March 1958). Accepted on 8th September 1960.

Formed with narrow grooves, each being radiused between the substantially vertical side and the base of the groove.

67043. National Research Development Corporation. Process for the preparation of cephalosporin C compounds. Accepted on 14th September 1960.

By treating cephalosporin C in aqueous solution with a weak tertiary base, the solution being buffered to a pH not exceeding 7.

67050. Sudhir Kumar Dass. An apparatus for raising water. Accepted on 14th September 1960.

Comprising inlet pipe fitted with a valve which is connected to a nipple which is connected to a short pipe passing through an air chamber, the short pipe being slotted and the upper end of short pipe joined to delivery pipe attached with hinged clamp to one end of lever mounted on fulcrum.

67066. Imperial Chemical Industries Limited. Process for the manufacture of new monoazo dyestuffs. (26th March 1958). Accepted on 9th September 1960.

A diazotised 2-naphthylamine-1-sulphonic acid is coupled with a naphthol sulphonic acid component substituted by a halo-triazinyl group.

67115. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Substituted styrene polymers. [Addition to No. 59674]. Accepted on 9th September 1960.

At least one vinyl aromatic compound containing one or more nuclear fluorine atoms is polymerised in the presence of a catalyst obtained by reacting a compound of metal of Gr. IVa, Va or VIa with a metalloc-organic compound of metal of Gr. II or III.

67127. Howa Kogyo Kabushiki Kaisha (Known as Howa Machinery, Limited. Garnett opener for use in spinning machines. Accepted on 8th September 1960.

Comprises two cylinders provided with garnett teeth disposed one above the other, a feeding lattice, a doffer cylinder and a cage.

67158. T. J. Smith & Nephew Limited. Improvements in or relating to thermoplastic films. (28th March 1958). Accepted on 9th September 1960.

Adding to and intimately mixing with the normal mix for casting p.v.c. films and which may include a thinner, a proportion, upto 60 per cent or more of resin content of the mix, of a blowing agent.

67243. C. W. Attwood. Improvements in or relating to building construction and junction plates therefor. Accepted on 12th September 1960.

The member being the form of a plate having a plurality of flat surfaces extending in a single plane radially from a common centre point and equidistant.

67292. N. L. Gupta. An improved cleaning device for floor, wall or like surfaces. Accepted on 14th September 1960.

Consisting a frame, a handle, a fork-shaped bridge, a pair of parallel rods, a foam rubber block or like, a U-shaped clamp, an extended lever and grip.

67485. Aluminium-Industrie-Aktien-Gesellschaft. Improvements relating to electrolytic cells for the production of aluminium. Accepted on 14th September 1960.

Wherein the side walls of the shell have a substantially vertical upper part and an inwardly sloping lower part which forms an angle of 173°—135° with the horizontal bottom.

67505. General Electric Company. Method of preparing cube texture magnetic sheet material from a cast ferrous metal body. Accepted on 12th September 1960.

Characterised in that the body contains from 0.02 per cent to 0.1 per cent by weight of carbon and the hot rolled band is decarburized and annealed to a carbon content of less than 0.010 per cent by weight.

67541. E. I. du Pont de Nemours and Company. Process for setting textiles prepared from graft copolymers. Accepted on 14th September 1960.

Wherein side chains in non-graft form of structure are soluble in liquid, not solvent for graft copolymer, predetermined set of which returns when wet.

67577. S. Wada. Process and apparatus for grinding and forming tips of syringe needles. Accepted on 9th September 1960.

Wherein an electrolytic polishing treatment is effected simultaneously with grinding and cutting operations.

67627. AB Vacuum-Extractor. Improvements in instruments for simplification of uterus investigations. Accepted on 9th September 1960.

Consisting of air-withdrawal vacuum-acting suction cup for enveloping cervix and an axially adjustable opening device for cervix both of which form seals against the entry of air through suction cup opening against cervix.

67631. USN Engineering Co. Device for operating petrol engine by diesel oil. Accepted on 12th September 1960.

Comprising a chamber for storing diesel oil in atomised state, a discharge pipe leaving from said chamber to the carburettor, means for mixing air with the atomized fuel said discharge pipe being coated at its inside with mercury.

67696. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Improvement in acetylene production by means of hydrocarbons partial combustion. Accepted on 9th September 1960.

In incomplete combustion of hydrocarbons the cooling of the products of the partial combustion is effected by a mineral oil.

67734. Aluminium-Walzwerke Singen GmbH. Improvements relating to the production of lacquered sheets. Accepted on 12th September 1960.

A rolled aluminium alloy sheet is solution annealed, allowed to age covered with a lacquer and then heated to a temperature of 120°—240°C.

67814. Ciba Limited. New anthraquinone vat dyestuffs and process for their manufacture. Accepted on 12th September 1960.

An amino anthraquinone is condensed with a triazine compound.

67854. Mavor & Coulson Limited. Improvements in and relating to cutter chains used in mining machines. (31st May 1958). Accepted on 12th September 1960.

The pin and the bores of the links have mating cylindrical surfaces.

67875. Cardwell Westinghouse Company. Railway car draft gear. Accepted on 8th September 1960.
Spring means extending longitudinally in longitudinally extending casing and abutting closed end, resiliently yieldable resistance means and a friction mechanism in said casing.

67893. Imperial Chemical Industries Limited. Production of mixed anhydrides of hyponitrous acid. (4th June 1958). [Addition to No. 62621]. Accepted on 9th September 1960.
Reacting hyponitrous acid with an acyl halide in the presence of a base soluble in the reaction mixture.

67904. Stamicarbon N. V. Process of preparing at low pressure ethylene polymers having a molecular weight lower than 100,000. Accepted on 9th September 1960.
With reduction product of titanium tetrachloride reducing agent metal of 1st to 3rd group of perodic system having degree of reduction lower than 80 per cent as catalyst.

67905. Stamicarbon N. V. Process of preparing at low pressure ethylene polymers of high molecular weight. Accepted on 9th September 1960.
With catalyst reduction product of titanium tetrahalogenide dialkyl aluminium hydride wherein concentration of tetravalent titanium is equal or higher than 1 mg atom litre of inert liquid.

67906. Stamicarbon N. V. Process of preparing mixed ethylene polymers of higher molecular weight. Accepted on 9th September 1960.
With reduction product of titanium tetrahalogenide and 1st—3rd group metal hydride or its organometallic compound as catalyst having degree of reduction below 80 per cent and mixing with similar polymer produced with catalyst having degree of reduction of 99-100 per cent.

67942. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for preparing sulfonyl-ureas. Accepted on 13th September 1960.
By reacting a sulfonic acid amide derivative with a carboxylic acid amide.

67966. Stamicarbon N. V. Sieve bend pivoting on a shaft. Accepted on 9th September 1960.
Central shaft of the screening deck is mounted in or on an arm which at its one end can be hinged on a fixed horizontal shaft.

68046. Societe D'Electro-Chimie, D'Electro-Metallurg'e Et Des Acieries Electriques D'Ugine. Improvements in or relating to the production of ingots. (22nd October 1958). Accepted on 9th September 1960.
Comprises observing the value of a suitable physical property during casting, reducing the rate of casting or stopping it until the value corresponds to that of slag and then continuing it until observed value corresponds to that of steel.

68155. Ilford Limited. Diazacarbocyanine bases. Accepted on 12th September 1960.
Condensing a ketone and hydrazine derivative.

68194. Chas. Pfizer & Co., Inc. Preparation of an oleandomycin or erythromycin ether and acyl esters of said ethers. Accepted on 9th September 1960.
Reacting oleandomycin or erythromycin with alkylene carbonate.

68273. B. A. Wilson. Light diffusing ceiling panel. Accepted on 9th September 1960.
Consists of upper and lower sheets of light transmitting plastic the lower sheet having a plurality of upwardly extending spaced dimples.

68399. Ciba Limited. Process for the manufacture of 20:21-ketols of the pregnane series. Accepted on 14th September 1960.
Catalytically hydrogenating in neutral medium a Δ^{14} -20-oxo-pregnene-21-acid ester and reducing the resulting compound by means of complex metal hydride.

68413. Lepetit S.p.A. N. N-dimethyl-2-phenyl-2-benzoyloxy methyl butylamine process for its manufacture and composition containing the same. (17th July 1958). Accepted on 9th September 1960.
Refuxing α -carbethoxy- α -phenylbutyric acid with thionyl chloride, reacting the product with diethylamine, hydrogenating the resulting compound and benzoylating the product.

68498. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to semi-conductor barrier layer systems, more particularly transistors or crystal diodes provided with hermetically sealed envelopes, and methods for manufacturing such systems. Accepted on 14th September 1960.
The space between the envelope and barrier layer system proper contains at least one stabilising substance from the group comprising sulphides, selenides, tellurides, phosphorus, antimony, bismuth and compounds or alloys containing at least one of the latter three-elements.

68537. Motoren-Werke Mannheim AG. vorm. Benz Abt. stat. Motorenbau. Improvements in or relating to air cooled internal combustion engines. Accepted on 12th September 1960.
An air cooling channel formed in and extending across a central portion of cylinder head between air cooling inlet side and air cooling outlet side of said head.

68641. Union Carbide Corporation. Ethylene-1-olefin copolymers and process for producing same. (26th March 1959). Accepted on 9th September 1960.
Polymerising in presence of a catalyst comprising hydrocarbon soluble aluminium trihalide, an organo-metallic compound of zinc, cadmium, mercury, germanium, tin, lead, antimony or bismuth, and a trace amount of a vanadium compound.

68755. Imperial Chemical Industries Limited. Improved apparatus and process for the production of tubes and tubular films. (2nd September 1958). Accepted on 8th September 1960.
Characterized in that at least during the start up procedure, between the extrusion die and the passage way, the molten tube is at least solidified on its surface by means of jets of cooling liquid directed inwardly on to the tube.

68783. Magnefabrik. Method of producing elongated metal particles of very small cross-section by plastic deformation. Accepted on 8th September 1960.
Metal or metal oxide powders are filled into a metal tubes, the ends of which are then closed, and the filled tubes are etching deformed by rolling, extruding or drawing through dies.

68835. Union Carbide Corporation. Tear tapes and method of applying them to polyethylene film wrapping materials. Accepted on 9th September 1960.
Comprises drawing a tear tape from supply roll, passing it to a heating zone, softening resinous coating and contacting the softened coating with polythelene film.

68950. The Mining Engineering Company Limited. Improvements in belt conveyors. (27th September 1958). Accepted on 8th September 1960.
Spindles of outermost rollers being pivotally connected to stationary supports by couplings which are extensible against resilient loading.

68997. W. & T. Avery Limited. (formerly known as Avery's Limited). Improvements in or connected with load indicating mechanism. (16th September 1958). Accepted on 9th September 1960.
A rack is pivotally mounted on the lever at a distance from the lever fulcrum greater than the distance between the coupling of the connecting rod to the lever and the lever fulcrum.

69002. Wm. Gardner & Sons (Gloucester) Limited. Improvements in or relating to rotary drum mixers. (10th September 1958). Accepted on 8th September 1960.
A trough member extending transversely of rotary axis of the drum whilst being open in a direction facing radially outwardly of the axis.

69025. Dunlop Rubber Company Limited. Improvements in railway wheel, brake and suspension assemblies. Accepted on 12th September 1960.

Comprising wheel, axle, axle box, support member, resilient compression member, guides on vehicle frame engaging axle box, monitor brake engaging wheel rim, pivoted to support member and main brake actuated by movement of monitor brake.

69078. C. S. Shaw. Improvements in or relating to composite boards of the kind used for making packing boxes and like articles. Accepted on 8th September 1960.

Jute or like fibrous material sandwiched between a sheet of bitumen paper and a sheet of craft paper by means of a resinous adhesive material.

69080. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Substituted acid hydrazides and process for the manufacture thereof. Accepted on 9th September 1960.

Condensing 1, 2-diisopropyl-hydrazine with an acylating agent.

69086. Worthington-Simpson Limited. Improvements in and relating to electric motorised pump units of ventilated type. (24th September 1958). Accepted on 9th September 1960.

Wherein the fan and discharge outlet are located in the detachable end cover.

69089. Worthington-Simpson Limited. Flame-proof electrical motorised pump unit. (24th September 1958). Accepted on 8th September 1960.

Pump casing and the end cover of motor casing constitute separate elements and said casing provided with flame-proof joints between end cover and said casing, and flame-proof glands between motor shaft and casing.

69156. Westinghouse Brake & Signal Company Limited. Improvements relating to railway vehicle vacuum braking apparatus. (3rd October 1958). Accepted on 12th September 1960.

Comprises only a single vacuum supply pipe electro-magnetically operated valves and a relay valve device.

69169. Clayton Dewandre Company Limited. Improvements in or relating to rotary exhausters. Accepted on 9th September 1960.

Wherein the rotor is fixed to a central shaft constructed for the introduction of lubricant under pressure of the rotor.

69184. Timber Box Manufacturing Company. Improvements in or relating to bobbins of the kind used in jute and textile mills. Accepted on 14th September 1960.

The barrel is either flared or is of a larger diameter at one or both of ends of it so as to prevent the barrel from coming out of the flange or flanges fitted thereon.

69378. Wilmot-Breeden Limited. Improvements in or relating to releasable fastening devices. (22nd October 1958). [Addition to No. 60858]. Accepted on 12th September 1960.

Comprising two parts between which relative translatory movement and angular movement occurs during fastening operation, translatory movement occurring in a plane transverse to the axis of the angular movement, the reaction force being aligned with the direction of relative translatory movement.

69404. Applications Scientifiques, Techniques Industrielles Et Commerciales A.S.T.I.C. Improvements in or relating to mine roof supports. (14th May 1959). Accepted on 8th September 1960.

Mine-roof support comprising at least one overlapping section member and one associated section member slidably connected by two assemblies consisting of a stirrup and yoke characterised in that the flanges of the overlapping section member project beyond the flanges of the overlapped section member.

69467. Ciba Limited. 2 : 5-bis-ethylene-imino-3 : 6-bis-caproylamino-para-benzoquinone and process for preparing, and pharmaceutical compositions containing same. Accepted on 9th September 1960.

Reacting 2 : 5-dihalozen-3 : 6-bis-caproylamino-para-benzoquinone with ethyleneimine.

69535. Polymer Corporation Limited. Process for polymerizing butadiene-1, 3 and catalysts therefor. (30th October 1958). Accepted on 8th September 1960.

Butadiene-1, 3, is polymerised in the presence of a catalyst obtained by admixing an iodide of a heavy metal of Gr. IV, V or VI, the metal being in maximum valence state, an organometallic compound of metal of Gr. III and a compound containing at least one hydroxy group a carboxylic acid or a mixture of both.

69861. G. Molyneux. Means for securing track rails. Accepted on 12th September 1960.

A rigid plate to be threaded by a bolt and to be forced downward towards and to make local contact with surfaces rigid with the support.

72101. Chas. Pfizer & Co., Inc. Pharmaceutical composition containing N-(P-chloro-benzenesulfonyl)-N'-(p-dimethylaminophenyl) urea. [Divisional date 10th March 1959]. Accepted on 9th September 1960.

Containing N-(P-chlorobenzene sulfonyl)-N'-(p-dimethyl aminophenyl) urea together with a carrier.

72723. Standard Telephones and Cables Limited. Improvements in or relating to static magnetic distributors. (23rd December 1957). [Divisional date 12th December 1958]. Accepted on 9th September 1960.

Comprising a co-ordinate array of rows and columns of ferromagnetic elements.

72724. Standard Telephones and Cables Limited. Improvements in or relating to telephone subscriber's metering systems. (23rd December 1957). [Divisional date 12th December 1958]. Accepted on 9th September 1960.

Using magnetic drum storage devices.

Opposition proceedings

The opposition entered by Montecatini Societe Generale Per L'Industria Mineraria E Chimica to the grant of a patent on application No. 61344 and notified in Part III, Section 2, of the Gazette of India dated 13th September 1958, has been successful. A patent will not be sealed on this application.

Printed Specification Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

Restoration Proceedings

(1)

Notice is hereby given that an order was made on the 30th August 1960 restoring the patent numbered 41729, dated as of the 25th July 1949 granted to Shri Dhar, for, "Means for manufacturing artificial glass gems known as chatons".

(2)

Notice is hereby given that an application has been made under Section 16 of the Indian Patents and Designs Act, 1911 for the restoration of the following patent:—

No. 46740—Dr. Govind Pandurang Kane and Bhalchandra Krishnajee Kamat.

The patent ceased on the 18th February 1960 owing to non-payment of renewal fee within the prescribed time and cessation of the patent was notified in Part III, Section 2 of the Gazette of India, dated the 27th August 1960. Any person may give notice of opposition to the restoration by leaving an application on Form 6 of the Indian Patents and Designs Rules, 1933, at the Patent Office, 214, Lower Circular Road, Calcutta 17, on or before the 5th November 1960.

(3)

Notice is hereby given that an application has been made under Section 16 of the Indian Patents and Designs Act, 1911, for the restoration of the following patent:—

No. 48934—Kongandra Thammu Achaya Shankerrao Amirthrao Saletor and Syed Husain Zaheer.

The patent ceased on the 9th February 1957 owing to non-payment of renewal fee within the prescribed time and cessation of the patent was notified in Part III, Section 2 of the Gazette of India dated the 20th July 1957. Any person may give notice of opposition to the restoration by leaving an application on Form 6 of the Indian Patents and Designs Rules, 1933, at the Patent Office, 214, Lower Circular Road, Calcutta-17 on or before the 5th November 1960.

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The dates shown in each entry is the date of registration of the designs including in the entry.

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

Class 1. No. 104671. Gurdip Singh Bolino, Indian, resident of Railway Road, Jullundur City, Punjab, "Drill stand", May 10, 1960.

Class 1. No. 103815. Union Carbide India Limited, a Company incorporated under the Indian Companies Act whose trade or business address is, 1 and 3, Brabourne Road, Calcutta, West Bengal, "Flashlights", March 3, 1960.

Class 1. No. 105370. Om Parkash Gambhir, Partner of M/s. General Engineering Works, Mandi Road, Jullundur City, Indian Subject, "Self-centring chuck", June 27, 1960.

Class 3. No. 104887. Frimatic, Camps & Cie., a French Company, of 7 & 9, rue Henri-Turot, Paris 19e, France Manufacturers, "A shelf for a refrigerator", May 24, 1960.

Class 3. No. 104816. Dunlop Rubber Company Limited, Rubber Goods Manufacturers, a British Company, of Fort Dunlop, Erdington, Birmingham 24, England, "A tyre for a vehicle wheel", May 21, 1960.

Class 3. No. 105026. Terra Trading Corporation, (An Indian Partnership firm Registered under the Indian Partnership Act), Ashok Building, Lohar Chawl, Bombay-2, Maharashtra, India, "A wall-cum-table fan", June 2, 1960.

Class 3. No. 104917. Bombay Paints & Allied Products Private Limited (An Indian Private Limited Company Registered under the Indian Companies' Act of 1956), 248, Ripon Road, Bombay-8, Maharashtra State, India, "A grip or handle for containers", May 25, 1960.

Class 4. No. 105396. Ram Chandra Gupta, Indian trading as Anil Scientific Co., Jassi Building, Railway Road, Ghaziabad, District Meerut, Uttar Pradesh, "Observation tube", June 28, 1960.

Class 4. No. 104724. M. G. Shahani and Co. (Delhi) Private Ltd., B-Connaught Place, New Delhi-1 (India) a Company incorporated under the Indian Companies Act, having its Registered Office at New Delhi, "A glass bottle", May 14, 1960.

Class 13. Nos. 105524 to 105534. Shree Ram Mills Limited, Fergusson Road, Parel, Bombay-13, India, a Company incorporated in India, "Textile piece goods", July 15, 1960.

Class 13. Nos. 105127, 105128, 105133 and 105132. The Arvind Mills Ltd., Naroda Road, Ahmedabad 2, Indian Company, "Cotton textiles fabrics", June 9, 1960.

Class 13. Nos. 105405 to 105412. The Tata Mills Ltd., an Indian Company, Bombay House, Bruce Street, Fort, Bombay, "Textile goods", June 28, 1960.

Class 13. Nos. 105259 to 105265. Calico Dyeing & Printing Mills Private Ltd., Industrial Estates, 41-E, Parel Chawl Road, Lalbaug, Bombay-12, Indian business concern, (Private Limited Company), "Textile goods including silks and art-silk piece-goods", June 21, 1960.

Class 13. Nos. 104805 to 104814. Crown Spg. & Mfg. Co. Ltd., Gokhale Road, (South), Parel, Bombay-13, Indian, "Textile goods", May 21, 1960.

Class 13. Nos. 104985 and 104986. The Standard Mills Co. Ltd. Indian Company, Mafatlal House, Backbay Reclamation, Bombay 1, (India), "Textile goods", May 31, 1960.

Class 13. Nos. 105245 to 105248. The Victoria Mills Limited, an Indian Company situated at De Lisle Road, Parel, Bombay-13, "Cotton piecegoods", June 16, 1960.

Class 13. Nos. 105488 to 105494. The Khatau Makanji Spg. & Wvg. Co. Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay, Indian Company, "Textile piece-goods", July 7, 1960.

Class 13. Nos. 105671 to 105675. The Victoria Mills Limited, an Indian Company situated at De Lisle Road, Parel, Bombay-13, "Cotton piecegoods", July 26, 1960.

Class 13. Nos. 105643 and 105644. The standard Mills Co. Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", July 25, 1960.

Class 13. No. 105727. The Standard Mills Co., Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", July 30, 1960.

Class 13. Nos 105649 to 105652. H. A. Shah & Co., Partnership Concern, Vasant Vijay Mills, "Vasant Vijay", 470/471, Worli Road, Bombay 18, (India), "Textile goods", July 26, 1960.

Class 13. Nos. 105695 and 105696. Calico Dyeing & Printing Mills Private Ltd., Industrial Estates, 41-E, Parel Chawl Road, Lalbaug, Bombay-12, Indian business concern, (Private Limited Company), "Textile goods including silks and art-silk piece-goods", July 28, 1960.

Class 13. Nos. 105626 to 105628. The Khatau Makanji Spg. & Wvg. Co., Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay Indian Company, "Textile piecegoods", July 25, 1960.

Class 13. Nos. 105397 to 105404. Messrs. The Phoenix Mills Ltd., an Indian Company whose address is, Imperial Bank Building, Bank Street, Fort, Bombay, "Textile goods", June 28, 1960.

Class 13. Nos. 105536 to 105545. The Khatau Makanji Spg. & Wvg. Co. Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay, Indian Company, "Textile piecegoods", July 19, 1960.

Class 13. No. 105243. The Ahmedabad Advance Mills, Ltd., an Indian Company of Bombay House, Bruce Street, Fort, Bombay, "Textile goods", June 16, 1960.

Class 13. Nos. 105497 to 105499. H. A. Shah & Co., Partnership Concern, Vasant Vijay Mills, "Vasant Vijay", 470/471, Worli Road, Bombay-18 (India), "Textile goods", July 7, 1960.

Class 13. No. 105653. H. A. Shah & Co., Partnership Concern, Vasant Vijay Mills, "Vasant Vijay", 470/471, Worli Road, Bombay-18 (India), "Textile goods", July 26, 1960.

Class 13. Nos. 105629 to 105640. The Tata Mills Ltd., an Indian Company, of Bombay House, Bruce Street, Fort, Bombay, "Textile goods", July 25, 1960.

Class 13. Nos. 105135 to 105138. The Standard Mills Co. Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", June 13, 1960.

Class 13. Nos. 105267 to 105288. The Century Spg. & Mfg. Co. Ltd., Indian Company, Industry House, 159, Churchgate Reclamation, Bombay-1, "Textile goods", June 21, 1960.

Class 13. Nos. 105295 to 105304. The Khatau Makanji Spg. & Wvg. Co. Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay, Indian Company, "Textile piecegoods", June 22, 1960.

Class 13. Nos. 105321 to 105324. The Standard Mills Co. Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", June 22, 1960.

Class 13. Nos. 104973 to 104980. Calico Dyeing & Printing Mills Private Ltd., Industrial Estates, 41-E, Parel Chawl Road, Lalbaug, Bombay-12, Indian business concern (Private Limited Company), "Textile goods including silks and art-silk piecegoods", May 30, 1960.

Class 13. Nos. 105867 to 105875. Calico Dyeing & Printing Mills Private Ltd., Industrial Estates, 41-E, Parel Chawl Road, Lalbaug, Bombay-12, Indian business concern (Private Limited Company), "Textile goods including silks and art-silk piecegoods", August 9, 1960.

Class 13. Nos. 105546 to 105565. The Century Spg. & Mfg. Co. Ltd., Indian Company, Industry House, 159, Churchgate Reclamation, Bombay-1, "Textile goods", July 19, 1960.

Class 13. Nos. 105837 to 105842. The Standard Mills Co. Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", August 9, 1960.

Class 13. Nos. 105566 to 105582. The Svadeshi Mills Co. Ltd., an Indian Company of Bombay House, Bruce Street, Fort, Bombay, "Textile goods", July 19, 1960.

Class 13. Nos. 105123 to 105126. The Arvind Mills Ltd., Naroda Road, Ahmedabad-2, Indian Company, "Cotton textile fabrics", June 9, 1960.

Class 13. Nos. 105738 to 105757. The Century Spg. & Mfg. Co. Ltd., Indian Company, Industry House, 159, Churchgate Reclamation, Bombay-1, "Textile goods", August 2, 1960.

Class 13. Nos. 105459 to 105461. The Khatau Makanji Spg. & Wvg. Co. Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay, Indian Company, "Textile piecegoods", July 1, 1960.

Class 13. Nos. 105803 to 105805. Messrs. Crown Spg. & Mfg. Co. Ltd., Gokhale Road (South) Parel, Bombay-13. An Indian Company, "Textile goods", August 4, 1960.

Class 13. Nos. 105189 to 105196. The Khatau Makanji Spg. & Wvg. Co. Ltd., 6, Ballard Pier, Laxmi Building, Fort, Bombay, Indian Company, "Textile piecegoods", June 13, 1960.

Class 13. Nos. 105470 to 105481. Messrs. The Phoenix Mills Ltd., an Indian Company whose address is,

Imperial Bank Building, Bank Street, Fort, Bombay, "Textile goods". July 6, 1960.

Class 13. Nos. 105139 to 105149. The Shree Niwas Cotton Mills Ltd., an Indian firm situated at Delisle Road, Bombay-13, "Cotton piecegoods", June 13, 1960.

Class 13. Nos. 104962 to 104972. Calico Dyeing & Printing Mills Private Ltd., Industrial Estates, 41-E, Parel Chawl Road, Lalbaug, Bombay-12, Indian Business Concern, (Private Limited Company), "Textile goods including silks and art-silk piecegoods", May 30, 1960.

Class 13. Nos. 105502, 105504 to 105507. Messrs. Crown Spg. & Mfg. Co. Ltd., Gokhale Road (South), Parel, Bombay-13, an Indian Company, "Textile goods", July 8, 1960.

Class 13. Nos. 105511 to 105514. Shree Ram Mills. Limited, of Fergusson Road, Parel, Bombay-13, India, a Company incorporated in India, "Textile piecegoods", July 11, 1960.

Class 13. No. 105483. Kantilal Punamchand Shah, Indian, Maskati Market, Ahmedabad 2, "Textile piecegoods", July 6, 1960.

Class 13. Nos. 105622 and 105623. The Standard Mills Co. Ltd., Indian Company, Mafatlal House, Backbay Reclamation, Bombay-1 (India), "Textile goods", July 23, 1960.
